

# MAPTUNER<sup>®</sup>X

## TAKE YOUR KAWASAKI TO THE NEXT LEVEL

With over 100 retailers worldwide and extensive use of MaptunerX, we can collect the necessary data needed to customise your tuning software for optimal performance and durability – no matter where or how you drive.

MaptunerX performs a so-called reflash. In short, MaptunerX first reads the original vehicle software to analyze and look up the various parameters such as load pressure, ignition timing, fuel, various types of restrictions, etc.

These parameters are then adapted to various conditions, such as the exhaust system, air kits, diffusers, climatic conditions, etc. This is one of the most complex ways to optimize the engine software - but undoubtedly the safest!

MaptunerX always uses the original vehicle software as the originating point, which means that the engine control unit is always aware of the increased power and thus at any point can adjust the inherent safety features originally programmed instead of defeating them or, as is often the case, ignoring them.

Maptun is continually developing new features and support for new vehicles. Your MaptunerX will never become outdated because it automatically updates its firmware every time it is connected to a computer and synchronized with our server.

### SPECS

20 V LED touch screen  
480x272 pixel resolution  
4 GB RAM  
USB cable included  
PC compatible

Can be used for an unlimited number of vehicles

Compact size, just 117 mm x 85mm

## MAPTUNERX SUPPORTS NUMEROUS MAKES

MaptunerX supports Yamaha snowmobiles, watercrafts, outboards and UTVs. Other brands, including Sea-Doo, Ski-Doo, Lynx, Polaris, Kawasaki, Can-Am and Arctic Cat, are also supported. Additionally, we carry plenty of features and optimization kits for cars.

**With MaptunerX, you can simply use the same device for all your vehicles!**

# TUNING KITS FOR KAWASAKI

This kit contains MaptunerX, USB- and Kawasaki-cabling, and a tuning license.

MaptunerX can be used for an unlimited number of vehicles; all you need is one (1) license per vehicle. Once the license has been activated for the vehicle, you gain free access to all the software plus the ability to switch between these as you like, including the original vehicle.

## SX-R 1500

STAGE 1

**Stage 1:**
